Council on Accreditation of Nurse Anesthesia Educational Programs

Introduction

The accreditation program for nurse anesthesia was initiated in 1952 by the American Association of Nurse Anesthetists (AANA). The accreditation function was transferred to the Council on Accreditation of Nurse Anesthesia Educational Programs/Schools in 1975 in response to a major revision of the U.S. Office of Education criteria. Since 1975, the Council has existed as a subject matter and fiscally autonomous multidisciplinary body which exists under the corporate structure of the AANA. This multidisciplinary structure gives recognition to the various publics which represent the community of interest within which the nurse anesthesia profession resides. The 13 members of the council are representative of the following groups: nurse anesthesia educators and practitioners, nurse anesthesia students, anesthesiologists, health care administration and the public. All are voting members.

The Council is recognized by the United States Department of Education and the Council on Postsecondary Accreditation. The scope of these recognitions is generic nurse anesthesia educational programs in the United States and its territories.

The Council on Accreditation is responsible for establishing the Standards & Guidelines for nurse anesthesia educational programs subject to consideration of revisions by the community of interest. The Standards address organization and administration, curriculum and instruction, records, faculty, resources, evaluation and ethics. The first set of Standards was adopted in 1952 and these have been under review and subject to periodic major and minor revisions since that time. Compliance with the Standards forms the basis for accreditation decisions made by the Council.

The accreditation process for established programs is based on the self-evaluation study document prepared by the program and a site review by a team of two or three reviewers. The process is repeated at intervals of up to four years and is supplemented by an interim report. A summary report of the review is presented to the Council for an accreditation decision. New programs desiring accreditation status must complete preaccreditation and initial accreditation reviews successfully prior to applying for accreditation status.

In the broad sense, accreditation provides quality assurances concerning educational preparation through continuous self study and review. The ultimate goal of the nurse anesthesia accreditation process is to improve the quality of nurse anesthesia education and provide a competent practitioner to the health care consumer and employers. Graduation from an approved program is one prerequisite of eligibility for national certification and a consideration used by governmental funding and licensing agencies, employers and potential students.

The Council on Accreditation publishes this list of accredited nurse anesthesia programs on a biannual basis as information for the public, other agencies and prospective students. A definition of the accreditation actions conferred follows:

Preaccreditation status signifies successful completion of a capability study and an onsite review with authorization to accept students.

Initial accreditation status signifies programs that have had students in the practicum for one year and have successfully completed the pre and initial accreditation process.

Accreditation status signifies that programs have completed successfully the pre- and initial-accreditation process. This status may be awarded for periods of one to four years.

Announced Public Probation signifies one or more of the following serious deficiencies which jeopardize the quality of the educational process; failure of a Program to respond by the specified date to a Summary Report which identifies serious deficiencies; or failure to submit a Self Study, a Progress Report or an Interim Study by the due date.

Revocation of accreditation status signifies a program which does not present sufficient evidence of educational quality nor intent to comply with the Standards & Guidelines.

Extension of Continued Accreditation Status signifies that the accreditation process cannot be completed prior to the expiration of the accreditation status through no fault of either the Program or the Council.

Officers and members currently serving on the Council are:

Chairman

Nancy Bruton-Maree, CRNA, MS
(CRNA Educator Representative)

Director
Raleigh School of Nurse Anesthesia
Raleigh, North Carolina

Vice Chairman

Richard A. Moss, CRNA
(CRNA Practitioner Representative)
Staff Anesthetist/Clinical Instructor
Sioux Valley Hospital
Sioux Falls, South Dakota

Secretary

Bernard C. DeLeo, MD
(Anesthesiologist Representative)
Washington University
St. Louis, Missouri

K. Stephen Anderson, CRNA, MEd
(CRNA Educator Representative)
Director School of Anesthesia
Hamot Medical Center
Erie, Pennsylvania

(CRNA Educator Representative)
Position Vacant

Howard R. Bromley, MD
(Anesthesiologist Representative)
Veterans Affairs Medical Center
Charleston, South Carolina

James E. Cox, PhD
(Public Representative)
American Society of Heating,
Refrigerating & Air Conditioning
Engineers, Inc.
Washington, DC

Carl R. Fischer, MPH, MSN
(Hospital Administrator Representative)
Medical College of Virginia Hospitals
Richmond, Virginia

Alice Ihrig
(Public Representative)
Self-Employed Consultant
Adult Education
Oak Lawn, Illinois

Edward H. Marthaler, CRNA, BA
(CRNA Practitioner Representative)
Fargo Clinic
Fargo, North Dakota

Denise Martin-Sheridan, CRNA, MS
(Chairman, AANA Education Committee)
Albany Medical College
Albany, New York

Lawrence Perry, MD
(Anesthesiologist Representative)
Retired
Grand Marais, Minnesota

Tony Lee Watson, BSN
(Student Representative)
University of Alabama at Birmingham
Birmingham, Alabama

Betty Horton, CRNA, MA
Director of Accreditation
Park Ridge, Illinois

ALABAMA

Birmingham—University of Alabama at Birmingham, Nurse Anesthetist Program, School of Health Related Professions, UAB Station, 35294; Joseph R. Williams, CRNA, MS; Keith D. Blayney, PhD; (205) 934-3209
SD Sept.
