Council on Accreditation of Nurse Anesthesia Educational Programs

Introduction

The accreditation program for nurse anesthesia was initiated in 1952 by the American Association of Nurse Anesthetists (AANA). The accreditation function was transferred to the Council on Accreditation of Nurse Anesthesia Educational Programs/Schools in 1975 in response to a major revision of the U.S. Office of Education criteria. Since 1975, the Council has existed as a fiscally autonomous multidisciplinary body under the corporate structure of the AANA. This multidisciplinary structure gives recognition to the various publics which represent the community of interest within which the nurse anesthesia profession resides. The 13 members of the Council are representative of the following groups: nurse anesthesia educators and practitioners, nurse anesthesia student, anesthesiologists, health care administrators and the public. All are voting members.

The Council is recognized by the United States Department of Education and the Council on Postsecondary Accreditation. The scope of these recognitions is generic nurse anesthesia educational programs in the United States, its territories and protectorates.

The Council on Accreditation is responsible for establishing the standards and guidelines for nurse anesthesia educational programs subject to consideration by its community of interest. The standards address organization and administration, curriculum and instruction, records, faculty, resources, evaluation and ethics. The first set of standards was adopted in 1952 and have been under review and subject to periodic major and minor revisions since that time. Compliance with the standards forms the basis for accreditation decisions made by the Council.

The accreditation process for established programs is based on self evaluation by the program and a site review by a team of two or three reviewers. The process is repeated at intervals of up to six years and may be supplemented by progress reports. A summary report of the review and the program's response to the

report are presented to the Council for an accreditation decision.

New programs desiring accreditation must complete a capability study and be awarded preaccreditation one year before applying for accreditation.

Accreditation provides quality assurances concerning educational preparation through continuous self study and review. The ultimate goal of accreditation is to improve the quality of nurse anesthesia education and provide competent practitioners to health care consumers and employers. Graduation from an approved program is one prerequisite of eligibility for national certification and a consideration used by governmental funding and licensing agencies, employers and potential students.

The Council on Accreditation publishes this list of accredited nurse anesthesia programs on a biannual basis as information for the public, other agencies and prospective students. A definition of the accreditation actions follows:

Preaccreditation signifies successful completion of a capability study and an on-site review with authorization to accept students.

Accreditation signifies that programs have completed successfully the preaccreditation process. Accreditation may be awarded for periods of one to six years.

Probation signifies serious deficiencies which jeopardize the quality of the educational process. Examples are the failure of a program to respond by the specified date to a summary report which identifies serious deficiencies or failure to submit a self study or a progress report by the due date.

Revocation of accreditation signifies a program does not present sufficient evidence of educational quality nor intent to comply with the standards and guidelines.

Officers and members currently serving on the Council are:

Chairman

Nancy Bruton-Maree, CRNA, MS
(CRNA Educator Representative)
Director
Raleigh School of Nurse Anesthesia
Raleigh, North Carolina

Vice Chairman

Denise Martin-Sheridan, CRNA, MS
(CRNA Educator Representative)
Albany Medical College
Albany, New York

Secretary

Howard R. Bromley, MD
(Anesthesiologist Representative)
Veterans Affairs Medical Center
Charleston, South Carolina

K. Stephen Anderson, CRNA, MEd
(CRNA Educator Representative)
Director School of Anesthesia
Hamot Medical Center
Erie, Pennsylvania

James E. Cox, PhD

(Public Representative)
American Society of Heating,
Refrigerating & Air Conditioning
Engineers, Inc.
Washington, DC

Bernard C. DeLeo, MD

(Anesthesiologist Representative)
Washington University
St. Louis, Missouri

Carl R. Fischer, MPH, MSN

(Hospital Administrator Representative)
Medical College of Virginia Hospitals
Richmond, Virginia

Vincent L. Hoellerich, MD

(Anesthesiologist Representative)
Raleigh Anesthesia Associates, Inc.
Raleigh, North Carolina

Alice Ihrig

(Public Representative)
Self-Employed Consultant
Adult Education
Oak Lawn, Illinois

Joyce Kelly, CRNA, EdD

(Chairperson, AANA Education
Committee)
Kaiser Permanente School of Anesthesia
Los Angeles, California

Edward H. Marthaler, CRNA, BA

(CRNA Practitioner Representative)
Kaiser Permanente/Harbor City
Harbor City, California

Carol S. Scott, CRNA, MN

(CRNA Practitioner Representative)
Anesthesia Associates of Kansas City, Inc.
Kansas City, Missouri

Keith Torgersen, SRNA, BSN

(Student Representative)
University of North Carolina
Bowman Gray School of Medicine
Winston-Salem, North Carolina

Betty Horton, CRNA, MA

Director of Accreditation
Park Ridge, Illinois
