Council on Accreditation of Nurse Anesthesia Educational Programs

Introduction

The accreditation program for nurse anesthesia was initiated in 1952 by the American Association of Nurse Anesthetists (AANA). The accreditation function was transferred to the Council on Accreditation of Nurse Anesthesia Educational Programs/Schools in 1975 in response to a major revision of the U.S. Office of Education criteria. Since 1975, the Council has existed as a fiscally autonomous multidisciplinary body under the corporate structure of the AANA. This multidisciplinary structure gives recognition to the various publics which represent the community of interest within which the nurse anesthesia profession resides. The 11 members of the Council are representative of the following groups: nurse anesthesia educators and practitioners, nurse anesthesia students, anesthesiologists, health care administrators, university representatives, and the public. All are voting members.

The Council is recognized by the United States Department of Education and the Commission on Recognition for Postsecondary Accreditation. The scope of these recognitions is nurse anesthesia programs that prepare graduates for entry level practice at the certificate, baccalaureate, master's or doctoral degree levels in the United States, its territories and protectorates.

The Council on Accreditation is responsible for establishing the standards and guidelines for nurse anesthesia educational programs subject to consideration by its community of interest. The standards address administrative policies and procedures, institutional support, curriculum and instruction, faculty, evaluation, and ethics. The first set of standards was adopted in 1952 and has been under review and subject to periodic major and minor revisions since that time. Compliance with the standards forms the basis for accreditation decisions made by the Council.

The accreditation process for an established program is based on self evaluation by the program and a site visit by a team of two or three reviewers. The process is repeated at intervals of

up to six years and may be supplemented by progress reports. A summary report of the review and the program's response to the report are presented to the Council for an accreditation decision.

A new program desiring accreditation must complete a capability study and undergo an on-site evaluation prior to being considered for accreditation. A similar review is required after the first students have graduated.

Accreditation provides quality assurances concerning educational preparation through continuous self study and review. The ultimate goal of accreditation is to improve the quality of nurse anesthesia education and provide competent practitioners to health care consumers and employers. Graduation from an approved program is one prerequisite of eligibility for national certification and a consideration used by governmental funding and licensing agencies, employers and potential students.

The Council on Accreditation publishes this list of accredited nurse anesthesia programs on an annual basis as information for the public, other agencies and prospective students. A definition of each accreditation action follows:

Accreditation signifies that programs have completed successfully the accreditation process. Accreditation may be awarded for periods of one to six years.

Probation signifies serious deficiencies which jeopardize the quality of the educational process. Examples are the failure of a program to respond by the specified date to a summary report which identifies serious deficiencies or failure to submit a self study or a progress report by the due date.

Revocation of accreditation signifies a program does not present sufficient evidence of educational quality nor intent to comply with the standards and criteria.

Officers and members currently serving on the Council are:

Chairman

Carol S. Scott, CRNA, MN
(CRNA Practitioner Representative)
Anesthesia Associates of Kansas City, Inc.
Kansas City, Missouri

Michael D. Fallacaro, CRNA, MS, DNS
(Chairman, AANA Education Committee)
State University of New York at Buffalo
School of Nursing
Buffalo, New York

Cathy Mastropietro, CRNA, MEd, MSN
(CRNA Practitioner Representative)
Mayfield Anesthesia Associates Inc.
Mayfield Heights, Ohio

Vice Chairman

Sandra Kilde, CRNA, EdD
(CRNA Educator Representative)
Minneapolis School of Anesthesia
St. Louis Park, Minnesota

Kathleen Hanna, CRNA, MS
(CRNA Educator Representative)
Pennsylvania Hospital School
of Nurse Anesthesia
Philadelphia, Pennsylvania

LCDR Jerry J. Micho, RN, MSN
(Student Representative)
Navy Nurse Corps Anesthesia Program
Bethesda, Maryland

Secretary

Timothy P. Nelson, CMA
(Hospital Administrator Representative)
Hamot Health Foundation
Erie, Pennsylvania

Vincent L. Hoellerich, MD
(Anesthesiologist Representative)
Raleigh Anesthesia Associates, Inc.
Raleigh, North Carolina

Norman R. Wolford, CRNA, EdD
(CRNA Educator Representative)
Barry University School of Natural
Health Sciences
Miami Shores, Florida

Sheila M. Burden, MEd
(Public Representative)
Moore Business Communications Services
Vernon Hills, Illinois

Suzanne G. James, PhD
(University Representative)
Saint Mary's University of Minnesota
Minneapolis, Minnesota

Betty J. Horton, CRNA, MA, MSN
Director of Accreditation
Park Ridge, Illinois
